

## Water Coils

---

### Hot Water Coils

The HH-2, VH-2, and MH-2 Series hot water coils are not only designed for use with Magic Aire blower coil units, but as duct-mounted booster coils as well. The SHW (Space Heating Water) Series is available in four sizes, from 1 to 4 rows, and can all ship via UPS. Framed construction provides easy duct mounting for use as a space heating coil.

### High Efficiency Coils

For high-efficiency vertical plenum and horizontal duct coils to match most condensing unit and furnace combinations, contact Mid-American Energy for ratings, volume pricing and lead time.

### HX/HW - VW/VX SERIES

Magic Aire stocks vertical plenum and horizontal duct coils from 2 through 15 tons nominal. Horizontal DX coils are stocked with piston metering devices up to 5 tons, and expansion valves from 7.5 to 10 tons. Vertical DX coils range up to 15 tons. Dual circuited 7.5 to 15 ton coils allow use with two remote condensing units. Water versions can be utilized for either chilled water cooling or hot water heating. Sizes range from 2 to 10 tons.
